SMALL BUSINESS FINANCING

The SBA 504 Loan Program provides approved small businesses with long-term, fixed-rate financing used to acquire fixed assets for expansion or modernization. 504 loans are made available through Certified Development Companies (CDCs), which are established by the SBA as non-profit corporations designed to support economic growth in their local areas.

How it works

504 Loans are loans structured to allow for shared project costs. The CDCs typically contribute 40% of the loan, and we'll provide up to 50%. That means for an average SBA 504 loan, your contribution may only be 10% of the project cost.
